

CHANGE IN THE MANAGEMENT OF NORTH STAR

Superintendent McQuillan Retires and F. K. Chandler Succeeds

ORANGEMEN PARADE IN BELFAST FOREST FIRES PROVE EXPENSIVE

By Associated Press.
BELFAST, Sept. 27.—Fourteen battalions of Ulster volunteers, comprising 11,000 of the "no home rule army," marched the streets today. Twenty thousand spectators gave a rousing reception and trouble is expected to develop in the course of the day.

WHIP TAMMANY AT ANY PRICE IS TEDDY'S ADVICE

ROOSEVELT URGES PROGRESSIVES TO WREST CONTROL OF THE STATE.
(By Associated Press.)
ROCHESTER, N. Y., Sept. 27.—In an address before the progressive state committee Roosevelt said today the dominant concern of the people in the fall election should be to prevent Tammany from obtaining control of the state, and less issues should be made subservient. He urged support of the progressives to defeat Tammany without enthroning Barnes, the republican, in its place. He said no intelligent, honest man doubts the attack on Sulzer was not because of anything he did in the campaign, but "because he championed the cause of popular government and rights of the people against the mandate of Tammany hall."

WOMAN HEALER MURDERED IN HER OFFICES

RELIGIOUS PRACTITIONER SLAIN BY SOME ONE WITH A GAS PIPE.
(By Associated Press.)
LOS ANGELES, Sept. 27.—The body of Mrs. Rebecca Gay, a religious health practitioner, was found early today in her office, murdered with a gas pipe. The evidence indicates the murderer attempted to throw the body out of the window in the second story, but was unable because of the weight. The body was in a bay window covered with religious papers. It is believed the murder was committed last evening. No motive was indicated, and valuables were not disturbed.

NEW YORK WINS

(By Associated Press.)
NEW YORK, Sept. 27.—Philadelphia was defeated by Boston today, assuring New York the National league pennant, although Brooklyn defeated New York.

ESKIMOS USE PARCELS POST TO SHIP FURS

(By Associated Press.)
PORT TOWNSEND, Wash., Sept. 27.—Eskimos in the Arctic circle are using the parcels post to market their furs in Seattle and San Francisco. The natives get better prices than by selling to traders.

TWENTY DAYS MORE FOR DIGGS AND CAMINETTI

(By Associated Press.)
SAN FRANCISCO, Sept. 27.—Twenty days additional were granted today to the attorneys for Diggs and Caminetti to prepare their application for appeal. The stay of execution on which defendants are out on bail was extended correspondingly.

Turns away Taxpayers Anxious to Get Rid of Coin

Taxes for the year 1913 are not due for over a month yet; to be accurate, they are not due until the first Monday in November.
The county treasurer today informed the Bonanza newsgatherer that many people were already sending in their tax money by mail or calling in person at the office in an attempt to unload some of their surplus coin. They are evidently laboring under the impression that the "List of Taxpayers" which they received from the assessor's office is a reminder that they should go to the treasurer and contribute towards the county's exchequer.
But Treasurer Mannix cannot at this time take their money; and he's sometimes sorry that he can't, because that little bill that leads to the court house is a hard one to climb; it takes the feverish taxpayer's breath away, and it seems like adding insult to injury to refuse to take a person's tax money and thus compel him or

HER TO MAKE ANOTHER TRIP TO THE TAX COLLECTOR'S OFFICE

It isn't often that people get mad because they can't pay out money; but this actually did happen the other day. A woman ascended the hill to the court house and when she reached the treasurer's office she was puffing like a steam engine. When she had accumulated sufficient ozone in her lungs to articulate, she said she wanted to pay her taxes. The official told her that he could not take her money; that the rolls had not yet been turned over to him; that the law would not permit him to issue tax receipts until the first Monday in November. The lady seemed huffy, and went away in a "mean-man" mood.
The tax rolls are now in the hands of the board of equalization, which has been sitting since Monday, September 15, and which will sit from "time to time" until the first Monday in October. It will also be in session on the second Monday in October, to

hear only the complaints of persons whose assessments have been added to and who have not been advised of the raise.

When the complaints have all been heard and the work of equalizing finished, the rolls will go to the auditor. When this officer has carried out the tax figures the rolls will be shipped to the state tax commission. This latter is a provision of the new tax law. When the eagle eyes of the hungry state tax commission have sufficiently scrutinized and revised the work of the county assessor and equalizers, the rolls, possibly looking like the map of Africa after Teddy got through with that country, will be shipped back to Tonopah.
The Nye county treasurer will probably get the rolls late in October. Immediately thereafter notices will be sent out, and taxpayers may then get as busy as they wish. Until then it is suggested that people bear the burden of carrying around their "filthy" with Christian fortitude.

AS HERE, AND YOU CAN'T TOUCH A MEAL FOR TWO FOR LESS THAN \$5. JUST THINK OF A BILL OF FARE WITH CANTALOUPE DOWN AT 90 CENTS, DOUBLE PORTERHOUSE STEAK \$4.80, EGGS 65 CENTS AND COFFEE 25 CENTS A CUP. THESE PRICES WILL GIVE YOU SOME IDEA OF THE WAY THEY HOLD YOU UP AND MAKE YOU SICK OF THE COST OF LIVING. I'LL NEVER KICK ON PRICES IN TONOPAH AS LONG AS I LIVE. YOU MUST NOT THINK WE TRIED TO TRY ANY FANCY LIVING. WE JUST TRIED TO LIVE IN THE SAME WAY WE LIVE AT HOME. THERE'S ONE THING THAT WILL STRIKE THE MAN FROM THE WEST IN BOSTON, AND THAT IS THE MARKED ABSENCE OF ALL SOCIABILITY. EVERYBODY APPEARS TO BE FOR SELF, AND ALL APPEAR TO BE PROSPEROUS.

"On our way back we stopped at Boston and went out to Quincy, Mass., to see the new dreadnaught Nevada, which was to be launched on September 16th. It is a monster ship and a thousand men are employed on the construction, but it will be the first of January before she is finished and ready for launching! One-third of the hull remains to be completed.

"I heard a great many inquiries about the mines of Tonopah and Tonopah stocks, and there is no question that Tonopah has a great name, and investors believe we have great mines and a greater future.

"But to come back to the heated spell. We never saw or felt anything like it. In southern California you could not touch metal without blistering your hands. Everything sizzled with the heat, and it was nothing unusual for the mercury to climb up to 110. No man knows what it is to experience this heat until he passes through it once. It was like living inside a red-hot stove day and night. But we are glad to be back on the desert, and I can assure my friends that I have all the eastern visiting I want for the rest of my life."

ELKS SOCIAL TO BE HELD NEXT THURSDAY EVE

NEXT DANCE WILL BE HELD ON THE NIGHT OF OCTOBER SECOND.

Tonopah lodge of Elks is sending out invitations for the next shirt-tail dance, which will be held at its clubrooms Thursday evening, October 2d. These dances have always proved enjoyable and the winter series will not offer any less inducements to the dancing fraternity than what they experienced during the summer series.

THE WEEK'S OUTPUT OF TONOPAH MINES

The Tonopah Mining company sent to the mill 3050 tons, the Belmont 3294 tons, the Montana-Tonopah 1678 tons, the Tonopah Extension 1070 tons, the West End 825 tons, the MacNamara 556 tons, the Jim Butler 400 tons, the North Star 400 tons, the Merger 650 tons, the Midway 50 tons and the Halifax 30 tons, making the total production for the week 12,503 tons, the estimated value being \$272,650.

MR. AND MRS. W. W. BOOTH HOME AFTER TWO MONTHS SPENT TOURING THE EAST AND NORTH

W. W. Booth, manager of the Bonanza, accompanied by Mrs. Booth, returned this morning from a two months' trip through the north-west and east, and are convinced of the superiority of Nevada and Tonopah over the rest of the country.

"The trip through Canada was not what I expected," Mr. Booth said. "The railroad is nice and the scenery grand, but the people are so distant and chilly that it is impossible for an American, especially one from the west, to enjoy himself in the atmosphere. They are reticent to a fault. Then their meats are like chewing on the strap of a new set of harness, and are away inferior to what we get every day of the year in Tonopah. However, let me tell you they have bumper crops and are paying farm hands \$5 and \$6 a day, and cannot get men to take in the crops. This phase of development is due to the settling of the country by Americans. They picked out the very best and richest farm country and are making fortunes. Canada tired of the old-fashioned farming methods of the Canadian people, and to attract settlers from this side of the line they are offering 160 acres, with houses, barns and all improvements ready for you when you take hold. Not alone that, but they furnish the money to carry the settler through the summer when he is waiting for his crops. Nevertheless, the fact remains that, with all their improvements, they will not be able to move the crops of the northwest and the settlers will suffer from that cause.

"In the east money is not so stringent as the leading political organs would have one believe. It is true the banks have their fingers tight on their loans but, now that the tariff is settled, they are beginning to loosen up and adapt themselves to the situation. At Oak Bluffs, the home of John F. Anderson, where we spent the greatest part of our time on the Atlantic coast, we had a most enjoyable time, but the heat was intense in the cities.

"There is one thing I want to say, and that is, it costs more to live in the east than in the west, and you can buy clothing and dry goods cheaper in Tonopah than you can in Boston or New York. Vegetables are cheap, but canned goods are as high

HALIFAX BLOCKS OUT 10000 TONS ORE EVERY MONTH

There was held in this city on Wednesday a business session of the Halifax Tonopah Mining company, at which in attendance were Vice President Thomas Kearns, Treasurer and Director C. B. Zabriske, Secretary Frank J. Westcott and General Manager S. H. Brady. B. F. Edwards of Oakland, representative of F. M. Smith, president of the Halifax company, accompanied Mr. Zabriske.

When asked in regard to the Halifax property, Manager Brady stated that on the 1000-foot level two parallel drifts are being driven, one in the foot wall and the other in the hanging. Cross-cuts are being driven at each 50-foot point, and on this level the vein has been opened so far 125 feet on the trend, and the established width is 40 feet. In the hanging wall on the west end of the vein, where opened, a raise has proceeded for 50 feet on the dip of the vein, and this work has all been in good ore.

A raise also is being driven in the foot wall side at a point south of the hanging wall raise mentioned, while drifting east continues with both the hanging and foot wall drifts. All this work is giving good grade mill-ore and has been doing so ever since the vein was first encountered.

On the 1100-foot level a station is being cut preparatory to cross-cutting southeast to the ore, and the vein is within 150 feet of this station. On the 1400-foot level the cross-cut is now out about 420 feet from the shaft, and the ore is scheduled to make its appearance at this point within approximately 60 feet of the face. On the 1700-foot level the management is cross-cutting to the north-west for the Belmont vein, and this deep work is attracting wide attention as a consequence of its importance.

So far as the vein has been opened, said Mr. Brady, the showing is first-class, and the present work is block-faulted out anywhere from 7000 to 10,000 tons of ore a month. The company is shipping such ore as much of necessity be extracted during this development work, the old Belmont mill at Millers being the destination of same, and the ore ranges in value from \$15 to \$30 per ton. The company will urge forward development at all points with a view to blocking a sufficient tonnage to justify mill installation.

The mine is splendidly equipped, and the operations to date have cost in the vicinity of \$270,000. At the present time the management is building a new change house with accommodations for seventy men, and this easily can be increased as the force is added to. The change house will be connected with the collar of the shaft by a covered walk, so that the miners leaving the warm mine will not be exposed to the weather.

Messrs. Zabriske and Edwards left yesterday afternoon for Oakland, and Mr. Brady will leave today or tomorrow for the Tonopah district.

Scandalous Confessions Of Men Entrusted With Operation of a Property

The management of the Tonopah North Star Tunnel and Improvement company has passed into new hands. The change becomes effective on the first of October. Then J. K. Chandler, formerly of the MacNamara mine, will assume direction in place of J. J. McQuillan and he will be assisted by James Murphy, recently shift boss of the Belmont, as foreman in place of James Heney, who left camp yesterday morning.

The same staff will have control of the affairs of the Rescue Eula.

This means a clean sweep has been made of the old administration following a week of sensational disclosures affecting the conduct of the North Star that brought about spectacular selling of North Star stock.

One week ago the San Francisco board closed with North Star quoted at 70 cents. Today the market was flooded with offers at 42 and 44 cents, with more sellers than buyers and marked weakness.

One week ago Superintendent McQuillan wired President Zadis that the property was in splendid condition. Yesterday he reported that the mine was barren and would remain so until developed below the 1050 level.

Exactly one week ago, the wise ones in Tonopah learned the facts and immediately started selling short. During the week nearly 300,000 shares changed hands. Outside investors and speculators could not understand the rush of Tonopah to sell, and telegrams began pouring in asking for information.

Last Wednesday the San Francisco Chronicle printed a telegram from McQuillan stating there was high-grade in the winze.

Evidently there was something wrong when there could be such a disparity in statements, and President Zadis sent W. B. Daniel, a mining engineer, from Oakland to Tonopah to investigate the conditions and report facts. Daniel is here still. He reported that the ore in the winze would not run more than \$5.80 to the ton, or less than the cost of treatment charges. That determined the course of action at San Francisco and the changes followed.

J. J. McQuillan stated today: "There are only about 150 tons of broken ore and mixed porphyry in the stopes, which will require a very careful sorting to get one shipment of payable ore. The vein above the 1050-foot level has decreased in value in the stopes to about \$6 a ton, with a very large admixture of porphyry, making it unprofitable."

Here is the statement of W. B. Daniels:

"I have been through the property and do not think that the stopes show over 500 tons of profitable commercial ore. The mine has been gutted in the most disgraceful manner, and there are only two small blocks

If the moon had been around last night there would have been blood across the whole face of the celestial visitor, for it was a hot night in the old town. Down in the restricted quarter and around the boarding-house district Chief of Police Evans reports a continuous round of pleasure interlarded with fist fights, gladiatorial contests and stabbing affrays. From twilight to an hour after midnight there was something doing all the time.

At 6 p. m. Paul Kokorra and George Fazin mixed it over the attractions of a Slavonian dance, and after the referee counted the score he found Paul had taken the count and was badly worsted. That is why a warrant was sworn out by Paul, who testified this afternoon before Justice Dismouth.

At 7 p. m. Jack Stratton, Pat McCabe and Jimmy Lane jumped on Johnny Murray as the latter was passing the Montana saloon, and for a while the west end of Main street resembled a battle royal, each fellow trying to get in a deadly lick on the unfortunate Murray. Chief Evans also took part in the melee, and landed the entire quartette in jail. Murray thought he had a grievance and swore out a warrant.

Grace Joyce was fined \$20 this afternoon and Ray Gallagher was sentenced to six months in jail, with the option of leaving town within 24 hours. Hazel Clark asked the complaint.

U. S. MINT LOSES PILE OF SILVER BY ADROIT METHODS

TO DETERMINE AMOUNT EVERY DOLLAR IN VAULTS MUST BE COUNTED.

(By Associated Press.)
WASHINGTON, Sept. 27.—The San Francisco mint has been robbed, although it is believed to be small, according to treasury officials, confirming today a report last night from San Francisco. It is believed the thefts occurred when the last dollars were coined, and a few dollars were taken from each sack and a thousand washers substituted so the weight would correspond. So far the count shows seven dollars missing. Determination of the exact amount will require a dollar-for-dollar count of the \$61,900,000.

The dollars were stolen from sacks in a sealed vault that had not been opened since 1897, according to Frank Leach, superintendent for sixteen years prior to the recent appointment of Shanahan.

Shanahan denied the rumor that \$30,000 in gold was stolen and washers substituted. He will make public his report as soon as he obtains permission from Washington.

TEMPERATURE REPORT.

Highest temperature yesterday, 68 degrees; a year ago, 78.

Lowest temperature last night, 51 degrees; a year ago, 59.

CUTTING SCRAPE AND THREE FIGHTS MAKE A HOT TIME IN OLD TOWN

At 9 p. m. Chief of Police Evans was called out with fire-department speed to suppress a riot in front of the Topic saloon. He hot-footed it for the place, unlimbering his Gat on the way, but found nothing worse than a couple of Slavonians drunk and celebrating. Between their mental condition and the flow of consonants from their clenched teeth, Evans could not make out their names and he sent them home in charge of friends.

But the hammer came along at midnight, just as the chief was thinking of trusting the peace of the camp to his aides. A couple of girls from the Barbary coast tried to rough-house it over a jealous quarrel, and when Hazel talked back Grace slapped her one across the chin with a keen-edged pocket knife. Then the unslaylike creature alashed Hazel once more under the chin and close to the jugular. One Ray Gallagher, the object of their affections, stood by and watched the performance, so Evans took him also.

Grace Joyce was fined \$20 this afternoon and Ray Gallagher was sentenced to six months in jail, with the option of leaving town within 24 hours. Hazel Clark asked the complaint.
